KAN DIGITAL LLC

Web · Software · QA · Accessibility · IT Support · Technology Resale — New York

VETERAN-OWNED | NEW YORK LLC | QUEENS, NY

CORE CAPABILITIES

- **Website & web-app development** — mobile-first, secure sites and portals; CMS migrations; forms and online services
- **Digital accessibility** — WCAG 2.1 AA audits, front-end/ARIA remediation, accessible PDFs, ACR/VPAT reports
- **Custom software & automation** — dashboards, workflow tools, AI-assisted document processing, integrations
- **QA / UAT / test engineering** — test plans, functional, regression and performance testing, defect management
- **IT support & maintenance** — tier 1–2 help desk, application support, patching and monitoring
- **Technical program management** — requirements, schedules, status reporting, change management, end-user training
- **Software & hardware resale** — licenses and equipment through authorized distribution, with setup, onboarding and support

DIFFERENTIATORS

- **Owner-performed work.** The founder — a U.S. Army veteran with software-engineering and technical program management experience — leads and signs off every deliverable.
- **AI-accelerated delivery.** Faster code, tests and documentation, with human QA on everything we ship.
- **Built for NYS SDVOB participation** — counts toward the 6% statewide goal and discretionary purchases (up to $1.5M) once certified.
- **One accountable contact**, responsive and NYC-based.

PAST PERFORMANCE

[Add as earned — client · scope · dates · value. Private-sector projects count.]
